

# Toxic Water Kills Lives

I see, you see, let's  
clean the sea!

## Clean the beach!

We should clean the local  
beaches once in a while.  
We can also dive in the  
sea to pick up the trash  
at the bottom.

## Stop reclamation!

We should stop  
reclamation because it  
causes the sea level to  
rise. It will cause floods  
that will destroy  
countless cities.

## Dont litter!

We should stop  
throwing rubbish and  
dumping toxic waste in  
the sea. The sea  
creatures will suffer  
and die.

Every little  
thing helps.  
If everyone  
helps, the  
earth will be  
much much  
much  
cleaner.
