

Same Or Different

P.4 Myra Satithawornchai

This is me and my friend Krystal. We are best friends. We are the same age. I like playing the piano. She likes reading books and comics. I always play with her. Her hair is longer than mine. Her eyes are bigger than mine too. Her ears are bigger than mine too. I am thinner than her. It may seem that we have the same height but I am a little bit taller than her in real life.

We always buy snacks together. We don't wear glasses. We do not like PE lessons but we like art lessons because drawing pictures is our favourite hobby.
