

Primary 5 - Wan Yu Hang Clayton
A Must-Visit Destination for Your UK Friend

My favourite place is the Hong Kong Science Museum. It is in Tsim Sha Tsui. I have been there many times. I went there with my mum and my brother. We took the MTR to get there. We visited the Electricity and Magnetism Gallery. I learned about magnets and electricity. I thought it was wonderful. I want to bring my friends there because they have never been to the Hong Kong Science Museum.
